Gross Weight:	2.000 kg
Height (with packaging):	3.000 cm
Length (with packaging):	24.000 cm
Width (with packaging):	15.000 cm

DESCRIPTION

These are safety hooks designed for telescopic ladders, offering added stability and security during use. The hooks are made of durable, black-coated metal to resist corrosion and ensure long-lasting performance. Technical specifications: Length - 22cm, Width - 11cm. Metal bar diameter - 10mm. Working load - 150kg. They are easily insertable into the ladder's top end and hook securely onto surfaces, such as beams or ledges. The design prevents the ladder from slipping or shifting, providing enhanced safety for users. Lightweight and compact, these hooks are convenient to store and transport along with the ladder.
