## DESCRIPTION

*It is a product-invention, and a unique solution for disabled wheelchairs, users of scooters as well as a platform which will be suitable for use in other life situations. 2 times folding ramp is easily collapsible and very convenient to carry in the hands, transport it with a car and store it. Although it may not look like a small and easy to carry thing, but the ramp / platform is extremely convenient thanks to its distinctive and unique design. The ramp has a handle, so it folds into a compact and manageable size and becomes 2 times smaller and 2 times narrower. This product is made out of high quality aluminum to EN-131, and CE standards, which ensures lightness, strength and durability, and provides additional charm to this product. All ramps that sold by us have maximum capacity of 272kg. Their surface is covered with sharp grooves which provide excellent grip with wheelchair tires, even if it is humid or raining. Product is resistant to external effects such as moisture, humidity, etc., so it is durable and long lasting. This product will immensely ease your daily life and routine, provide additional positive emotions, and remove all the difficulties associated with their transport and storage from the past. All of our products are New, Certified and Factory Packaged. Product main advantages: \*Quick and compact folding \*Convenient transportation and storage \*High-quality aluminum construction \*Length open - 153cm \*Length folded - 76.5cm \*Width open - 740mm \*Width folded - 365mm \*Weight - 12.8kg \*Max loading capacity - 272 kg \*Max recommended working height - 41cm*
