## FEATURES

Gross Weight:	<b>1.500 kg</b>
Height (with packaging):	<b>9.000 cm</b>
Length (with packaging):	<b>48.000 cm</b>
Width (with packaging):	<b>9.000 cm</b>

## DESCRIPTION

Height extenders must be used together with a Platform Stand PS60. By doing so, the working height will be increased by further 30cm (height adjustment in 10cm increments). Variable height can be increased by 10cm increments, using pre-drilled holes. If more precise height adjustment is required, new holes in the exact same locations on each leg/extender can be drilled by the customer himself. (Customer is responsible for drilling the additional holes in the correct locations if they are deemed to be necessary). Please note that using these height extenders, will make the platform less stable due to increased working height.
