FEATURES

Gross Weight:	***19.600 kg***
Height (with packaging):	***18.000 cm***
Length (with packaging):	***97.000 cm***
Width (with packaging):	***79.000 cm***

DESCRIPTION

Technical specifications: Length: - 182cm, Width - 74cm, Thickness/Height - 5cm, Weight - 17.8kg., Maximum working height - 53cm., Maximum loading - 300kg. Fully folded ramp dimensions: Length: - 95cm, Width - 77cm, Height - 15cm. High traction anti-islip surface. The ramp is a tri-fold design, meaning it consists of three connected sections that fold together for compact storage and transport and is constructed from aluminum, making it both lightweight and durable for long-term use.The surface is covered with a black, high-traction material to provide grip and prevent slipping. The hinge system along the fold lines ensures smooth operation and secure alignment when unfolding. A built-in handle on the side allows for convenient carrying when the ramp is folded. Locking pins at the edges help secure the ramp in place and prevent accidental movement. The ramp is designed for mobility aids such as wheelchairs and scooters, enabling access over steps, curbs, or raised platforms. Its compact foldable structure makes it suitable for both indoor and outdoor use, providing accessibility on the go.

WORHAN®

Handrail for ramps HR7 HR145 HR225 HR245 (SD90) Item ID: SD90

PRICE

Please login to see prices

FEATURES

Gross Weight:	***5.000 kg***
Height (with packaging):	***6.000 cm***
Length (with packaging):	***168.000 cm***
Width (with packaging):	***24.000 cm***

DESCRIPTION

Product dimensions: *Total length:* ***165 cm****; total height:* ***90 cm****; For additional dimensions and detailed measurements, please refer to the accompanying photos.*

This handrail is specifically designed for the foldable HR family ramps with two vertical supports secured directly to the ramp frame using dedicated clamps. Its continuous horizontal rail provides a stable gripping point along the length of the ramp, supporting users while moving up or down the inclined surface. The lightweight aluminium construction matches the ramp and allows the handrail to be fitted securely while maintaining the ramp's foldable design.

WORHAN®

Stand / Bridge for WORHAN ramps (RB74) Item ID: RB74

PRICE

Please login to see prices

FEATURES

Gross Weight:	***18.200 kg***
Height (with packaging):	***14.000 cm***
Length (with packaging):	***93.000 cm***
Width (with packaging):	***33.000 cm***

DESCRIPTION

Working Height: 290-740mm . Increments of height adjustments every 45mm.

This heavy-duty bridge connects two ramps, creating a stable and secure passage between them. Its reinforced steel frame and adjustable support legs provide excellent strength, stability, and durability. Designed for demanding use, it ensures a safe and reliable connection between ramp sections.

For optimal stability, the support feet must be securely fixed to the ground using expansion bolts.
